Mr. Mahesh Shastry

About Me

I seek roles that require leadership, systems thinking, and communication across science, engineering, and business. My experience spans computer science; strategy, manufacturing, while grounded in physics and mathematics.

Training

- CSIRO Scholarship (Materials Science);
- ACM ICPC Competitor;
- BMW Engineering Traineeship (Germany);
- Freescale Semiconductor Scholarship.

Education

- Engineering (Electrical and Electronic, Honours); Flinders University
- Science (Biomedical); Flinders University
- Master of Electrical Engineering (60% complete); UNSW & UniSA
- Diploma in Business; Diploma in Business Development

Executive Profile

Senior systems and technology consultant operating across defence aligned environments, industrial automation, and advanced digital platforms. Proven capability in AI-enabled systems, embedded platforms, secure infrastructure, and lifecycle assurance.A joint director of Kalman Systems Pty Ltd delivering technology-agnostic, risk oriented engineering outcomes. I am available for domestic and international employment.

Core Competencies

Systems Engineering | AI and Data | Embedded Platforms -ISO 15288; Requirements Engineering; Verification and Validation; System Modelling -Machine Learning; Natural Language Processing; Data Analysis and Analytics -Embedded Systems; PLC; MATLAB; C; Python; Industrial Networking (CAN; EtherCAT; Fieldbus)

Quantum and Semiconductor Sciences -Semiconductors; Fabrication; Advanced Manufacturing; Computing; Automation

Governance and Delivery -Risk Management; ISO 9001:2015 Assurance; Stakeholder Management; Service Delivery; Technical Leadership; Digital Transformation; Pre-sales to Delivery

Professional Experience

Joint Director | Kalman Systems Pty Ltd 2022–Present

- Deliver technology-agnostic advisory across medicine, environment, and finance sectors.
- Provide systems engineering support to multi-domain programs, reducing integration risk.
- Operate parallel consulting vehicle supporting enterprise architecture and market design.

Business Development Manager | CAN Automotion Pty Ltd 2022–2023

- Generated 15% defence revenue growth through targeted automation solutions.
- Expanded partnerships across NSW and QLD in EV, robotics, and embedded domains.
- Increased international revenue via strategic electrification market development.

Business Development Manager | Embedded Logic Solutions 2021–2022

- Expanded sales pipeline by 25% through new market penetration.
- Secured major defence contracts through structured technical tenders.
- Advanced ARM ecosystem adoption across embedded and industrial clients.

Engineering Manager | Department of Defence (Australia) 2020–2021

- Led technical assurance aligned to ISO 9001:2015.
- Improved mission-system sustainment transition and governance.
- Strengthened engineering process compliance and documentation.

Systems Engineer | City Systems Pty Ltd 2015–2020

- Reduced client downtime by 90% using enterprise monitoring architecture.
- Improved system reliability by 60% via infrastructure modernisation.
- Implemented cybersecurity controls reducing breach likelihood by 80%.

Affiliations - Institute of Electrical and Electronics Engineers (IEEE); - Association for Computing Machinery (ACM); - Engineers Australia (Engineers Australia); - Institution of Engineering and Technology (IET); - American Mathematical Society (AMS); - ASM International; - Society of Photo-Optical Instrumentation Engineers (SPIE).
